Dependent on course offerings		Dependent on course offerings	

All students are required to complete a comprehensive exam (KINE 585). This course is generally taken during the last quarter of coursework. The comprehensive exam is a no-credit course. A graduate student taking either 3 or 6 hrs. of internship who does not complete KINE 535 or KINE 551 must complete a written comprehensive exam. A graduate student taking 3 hrs. of directed research must successfully complete a 15-minute PowerPoint presentation for the comprehensive exam and a graduate student completing a thesis must pass the oral defense of the thesis as the comprehensive exam.
