

Satisfaction of Employers 2023

From 2018 through 2022, employer satisfaction data were collected through the Deans for Impact (DFI) Common Indicators System (CIS) Network. Deans for Impact ended the CIS Network at the end of the 21-22 academic year. In fall 2022, assessment subject-matter experts from 12 Louisiana educator preparation providers began the process of creating common completer and employer satisfaction surveys. The first year for implementation of the new employer satisfaction survey is 2024, therefore, data were not available in 2023.
